STUDENT JOB DESCRIPTION

POSITION IDENTIFICATION
Position Title: Graduate Academic Assistant
Classification Title: Graduate Academic Assistant
VP/Faculty: Medicine
Department: School of Population and Public Health
Pay/hours: $30/hour, 3 to 6 hours per week
Duration: January 2 to April 30, 2019
Positions Available: 1

JOB SUMMARY
The Graduate Academic Assistant (GAA) will participate in the work on Dr. Daniel Steel’s project, “Distinct Concepts of Diversity and their Ethical-Epistemic Implications for Science” (SSHRC Insight Grant # 435-2017-0336). Activities in Winter Term 2, 2019 will focus on qualitative research relating to diversity in deliberative mini-publics on health policy issues. The position may be renewed conditional on positive evaluation.

ORGANIZATION STATUS
This project operates out of the School of Population and Public Health (SPPH), Faculty of Medicine at the Vancouver Campus of the University of British Columbia. The research team consists of Principal Investigator and Research Manager, Dr. Daniel Steel.

RESPONSIBILITIES
The GAA will perform the following duties:
- Conduct literature searches
- Participate in team meetings
- Engage in qualitative research
- Contribute to research papers/presentations

SUPERVISION
The GAA will report to the Principal Investigator, Dr. Daniel Steel.

WORKING CONDITIONS
The GAA will be located in the Centre for Applied Ethics (2nd floor, Klinck Building) where office space will be made available.

QUALIFICATIONS
- Graduate training in a health-related field.
- Training and experience in qualitative research.
- Ability to read and analyze academic work related to deliberative mini-publics.

To apply, please forward your cover letter and resume to Dr. Daniel Steel, at daniel.steel@ubc.ca by 4 pm on December 4th, 2018.
