Ministry of Health  
Victoria  

Manager, Primary Care Quality  
$66,900.01 – $94,600.06 annually

The Primary Care Division sets the foundation for the delivery of high-quality health services by establishing patient centered health services policy for the delivery of provincial health care services. The division monitors quality assurance in the system, designs service delivery models that meet the needs of patients and works with service delivery partners on key actions and quality improvement initiatives.

As the Manager, Primary Care Quality, you will lead and manage the development and implementation of projects and initiatives. This will include developing and implementing provincial frameworks, policies, programs, and strategies to improve the delivery of primary care health care services in the province. You will also manage the development and implementation of provincial frameworks, policies, legislation, and stakeholder relations to manage quality of primary care health care priorities.

Qualifications for this role include:

- Bachelor’s Degree in business/public administration, health sciences, social sciences, nursing, medicine, or related field plus 4 years of recent, related experience; OR
- Diploma in business/public administration or health sciences, social sciences, nursing, medicine, or related field plus 5 years of recent, related experience; OR
- An equivalent combination of education and experience and 6 years of recent, related experience.

*Recent related experience must include each of the following:

- Experience in program evaluation and/or program performance management. Note: program performance management refers to the planning, monitoring, and continuous improvement of a program; not to people/human resource management.
- Leading the management of complex, multi-year projects or project components with high public profiles, large budgets, and divergent stakeholder issues.
- Experience in supervising and management of a team including performance management, coaching, team building and/or mentoring.
- Progressive experience on a management team demonstrating collaboration and sensitivity to stakeholder perspectives.
- Experience providing policy and/or issues-management recommendations and briefing materials to senior leadership.
